**„Kur fantazijos virsta realybe“**

Darbų kolekcijai sukurti naudoju skaitmenines fotografijas ir kompiuterinių programų technologijas. Naudojantis sukaupta fotografijų vizualine medžiaga, buvo sukurta darbų kolekcija daugiasluoksne tapybos technika ant drobės.

Konceptualioji kūrybinio darbo dalis – sekso partnerių (moterų) paieška žiniasklaidoje: (internetiniuose portaluose bei sms skelbimuose per televiziją).

Žiūrint visą tapybos darbų kolekciją, tarytum kyla klausimas, kur yra šios kompozicijos ašis, taškas, pagrindinė mintis. Kas šiuose darbuose svarbiausia – tekstas, kuris išplaukia iš pažinčių skelbimų ar raudono karmino rūke išnyrančios moters kūno dalys, veido fragmentai... Nors ta dviguba dviejų dimensijų pozicija galėtų būti ir šio kūrybinio darbo koncepcija... Šis darbas daugiau klausiantis nei atsakantis, todėl palieku tai žiūrovo apmąstymams.
