**Who are you when no one's watching?**

People want to get answer to this question from other people in contrary to ask it to yourself.

## **Alvine Baura**

The main topic which I nominate in my paintings is relationships between individual and society. How hard or how easy is it to survive in today's society with its values like money, religion, beauty. Some of the paintings are like personification with myself, some others are personification with society and world, the big mechanism which transforms by itself and how it transforms and influences people thinking and acting. Keywords: contradictions, comfort zone, false idols, symbiosis, inanity, relax, human error, crystallization, delusion, who are you when no one's watching?

### **CV**

Born in 1990
