Reflection

This painting is my observation of the forest – shadows, light, water. The colors used in this painting are bright and diverse. There is fluidity to this painting that brings the element of movement in to it, the focus is on the waves horizontally across the painting creating a story of a journey and movement and separated by harsh lines. The painting called “Reflection” is truly abstract. I am using simple forms in order to depict meaning of the painting “Reflection”. Nature in my opinion is amazing and I like to observe it’s forms and structure. It is perfect in it’s geometrical forms and shapes. I am looking for perfect balance in my paintings, I am trying to be constantly inspired by the balance we can observe in the nature. This painting “Reflection” is concentration particularly on the forest life. I am bringing together light of the strong Sun and shadows we can observe only in the deep forest with lots of trees. It is kind of a puzzle – I put together lots of small pieces and create one big peace and this peace is described as the essence of every living being on this Planet. In fact second name of this painting is “Essence of the forest”.

Laura Tolpeznikova was born in Riga, Latvia.

Education

2007 – 2010 The Academy of Arts in Riga, Latvia MA (multi-visual painting department)

2008- 2009 Accademia di Belle Arti di Brera, Milan, Italy
