

[EN]

My painting "**Thankfulness**" (mixed media on canvas, 100x150) represents the movement on stage when a dancer are making reverence.

It is blink and anatomy of movement in the same time. The choreography on the flat surface.

Open and thenkfulness movement. The moment when the body are open for emotions which broadcast the public. I choosed this one movement and tried to transferred the feeling of it on canvas.

Creative biography

SANDA SKUJIŅA

Website: <http://sandaskujina.daportfolio.com/>
