

Exotic surrounding refers to something distant. girl have gone from one enviornment to another. two very near places to each other, but totally different.

It is making myself clean from the past that haunts.

Water is bigger place- it's new and unpredictable, but it doesn't hide the past in itself. I can see more than I did before.

The walrus in the backround isn't there anymore, it is just a memory now. the walrus isn't dangerous anymore.

The girl is going forward, she may be a little afraid, but she's going anyway.
