

Work "EIGHT OUT OF TEN FLOOR LAMPS" consists of eight paintings, each one showing the same content- an interior featuring a floor lamp, thus looking very similar, but not exactly the same. Required value of the work has been calculated by adding 10 eur per each painting:
 $10+20+30+40+50+60+70+80=360$ (EUR)

ELĪNA VĪTOLA

b. 1986, Latvia

Creative biography

My interest in painting started when i was about 4 years old, which was when i found two books in my parents bookshelf full of pictures of extraordinary beauty- one was about still life painting in soviet Latvia, another about pastel painting. When at the age of eleven i accidentally found out that art is not only beautiful but also can express powerful ideas, i got hooked and started studying in Janis Rozentāls Riga Art school, which i finished in 2006 with painter's diploma. In 2015 i got BA diploma in painting from Latvian Art Academy and am currently going to get a MA diploma as well. I have had chances to exhibit my works in various exhibitions curated by Academy, but on my own i have had a show in Tallinn's Kuupimetri gallery. Besides painting i have recurring side slips towards photography and i am working as a photographer in 427 Gallery and also flirting with curating as i am organizing small exhibitions in a private space called "my secret gallery".
