Conception

Instead of the ancient, strong forest, there is now a proliferate thicket, arched young alders and willows are now sizzling - criss-cross-transverse - they have some pretty fun there! The spirits of nowadays dinosaurs are floating above the forest glade and searching for their lost home. One stunted elm now became a sacred tree.

I live with the wildness of nature, which, despite repeated human intervention, is beginning to recover in a chaotic way. Lush thickets and weed are holding their clear-cut area now for their big celebration. I grow in the same rhythm with it.
